

A circular diagram consisting of a central circle and an outer ring. The central circle is divided into two equal halves: the left half is red and the right half is light blue. The outer ring is divided into 24 segments of varying widths and colors. Starting from the top and moving clockwise, the segments are: a large white segment (approx. 15%), a small pink segment (approx. 3%), a small blue segment (approx. 3%), a small pink segment (approx. 3%), a small blue segment (approx. 3%), a small pink segment (approx. 3%), a small blue segment (approx. 3%), a small pink segment (approx. 3%), a small blue segment (approx. 3%), a small pink segment (approx. 3%), a small blue segment (approx. 3%), a small pink segment (approx. 3%), a small blue segment (approx. 3%), a small pink segment (approx. 3%), a small blue segment (approx. 3%), a small pink segment (approx. 3%), a small blue segment (approx. 3%), a small pink segment (approx. 3%), a small blue segment (approx. 3%), a small pink segment (approx. 3%), a small blue segment (approx. 3%), a small pink segment (approx. 3%), and a small blue segment (approx. 3%). The segments are arranged in a repeating pattern of pink, blue, and white.
